SUMMARY

Driven and detail-oriented Fullstack Developer with expertise in .NET and React, eager to join a team where I can grow, contribute my skills, and build software that truly makes a difference.

SKILLS

- C#, .NET, SQL, NoSQL, EF Core, REST API, Razor Pages, Blazor
- JavaScript, React, TypeScript, Redux, Node.js (Express.js)
- MaterialUI, Bootstrap, Tailwind
- Scrum, Git (GitHub, Azure), Testing (Jest, Cypress, xUnit, Playwright)
- Organizational skills, creativity, collaboration, customer focus, patience

RECENT WORK EXPERIENCE

Content Developer, *Pale Blue*

Jan 2024 – Jul 2024

- Defined game content and created detailed artifacts based on rules and requirements.
- Ensured seamless integration of content with a focus on game mechanics and user experience.

Frontend Developer, *Lvira*

Oct 2022 – Sep 2023

- Improved project stability using React, Redux, TypeScript, Material-UI, Bootstrap, and SCSS.
- Developed booking systems in collaboration with the development team, implemented map features using Google Maps API, and created a portfolio feature for photographers.
- Built a prototype for a unique service converting photos to videos using Node.js and FFMPEG.

Real Estate Photographer, *SE360 (Freelance)*

2021 – Present

- Photographed over 1,000 properties, including residential and commercial locations.
- Experienced in photo editing using Photoshop and Lightroom.

Previous Roles

2008 - 2019

- Worked in various service-oriented positions, including administration and personal assistance.
- Responsible for scheduling, customer interaction, and document handling.
